Thanks for the support from all our FRIENDS for making this club a success!

Welcome to Friends Outdoor, Hiking, and Camping Club. For over twenty-one years, we have been adventuring into some of Arizona's most beautiful wilderness areas. In fact, we would like to think that we offer the most comprehensive selection of outdoor activities in Arizona. Our hope is to be the catalyst that gives people that "boost" that we all need to get out there and really SEE Arizona; meeting some new friends in the process. Each newsletter outlines hikes for a wide range of abilities from easy to strenuous. If you would like more detailed information on a hike, give the hike leader a call. If you are currently a Friends member, or interested in learning more about the club, please join us on a hike or at one of the monthly meetings.

After about 3.2 miles you will come to some sandstone cliffs where the trail becomes a steep climb for about a mile. (Bring lots of water). We will start out our trek in Coon Creek heading down to Coon Spring where there is a permanent water supply and soft grass growing into soft sandy ground. From there we will bushwhack out of Coon Creek Canyon climbing approximately 500 feet. This hike will afford us opportunities to hike in riparian areas and a forest of century plants. We will continue to follow the edge of Coon Creek Canyon and our final destination will be a cliff dwelling known as the Nordhoff-Hope Site. The cliff dwelling will provide us commanding views of the Coon Creek drainage. You are welcome to make this hike a day-hike or a car camp Saturday night. The choice is yours. **RSVP by April 13<sup>th</sup>**

Starting from the north AFNM, we will backpack 8 miles south along the riparian corridor of the Agua Fria NM. There is the 'Water of Life' we must wade across, but that's part of the adventure. The water is typically only 6 inches deep and 2-3 feet in the summer months. Think '*Aravaipa*', not '*Cold Water*', and bring dry shoes/clothes for camping Saturday night. Along the way we will pass the historic Teskey and 1891 Schoolhouse sites, 3M Ranch, and other features.

At our 8 mile half-way point, we will camp near Horseshoe Ranch on Bloody Basin Road. (On the way north Saturday am to our starting point, we can park one or two vehicles here and the end-point at Badger Springs, staging food, drinks, and heavy items. ***Details TBD.***

Think '*Aravaipa ultralight, fresh food and cold drinks!*' Time permitting, we may explore the nearby Pueblo La Plata ruins.

On Sunday our 7 mile '*Water Wanderland*' continues south where Bloody Basin Road crosses the Agua Fria River. This section of river below Perry Mesa becomes more difficult as the canyon narrows and boulder hopping increases. Near the end of our journey are numerous *petroglyphs* at the junction of *Badger Springs Wash and Agua Fria River*. A short distance away is the Badger Springs trailhead and our vehicles. **Please see the FHC website for additional links, updates, and info about the AFNM.**

Phone: 602-339-8780

**RSVP by telephone AFTER clearing your schedule**

This promises to be a whirlwind visit into some seldom-seen areas. We will explore dirt roads, trails, canyons and ruins. I have gobs of beta on areas that we will try and see, though the actual itinerary will be an exercise in fluid dynamics, adjusting day to day to meet our varying needs and wants. Rest assured that we will be amazed at some of the areas that we will see and maybe a little less-so on others, but will arrive back home wanting to return to see all that we may have missed. But if you bring a spirit of adventure instead of a smartphone, rest assured you will have a good time. High clearance vehicles would be preferable. We will be camping off-grid, no campgrounds – please be self-contained.

This hike is located 12 miles from Superior off of the US 60. If you want a hike in a true Wilderness Experience this is the one for you. The trail heads up and then drops down to Pinto Creek through a shady forest of Arizona Sycamore, Juniper and Cottonwood. There are numerous stream crossings as you head upstream. Eventually you will reach Toney Cabin, a nice forested area. Although you aren't allowed to camp at the cabin there are many good camping spaces in the area. The area just cries out for exploration. **RSVP by May 3rd**

This will be a counterclockwise loop hike in the Mingus Mountain area. Starting at the Upper Yeager Canyon trailhead #28, followed by the Little Yeager Canyon Trail #533 and then the Yeager Cabin Trail #111. From the upper trailhead we descent a steep and rocky trail, dropping 1300 feet to the bottom of Yeager Canyon and Highway 89A. Turn left onto the Little Yeager Canyon Trail #533 and start climbing the west rim of Mingus Mountain in a series of switchbacks. Turn left and follow the trail to Yeager Cabin Trail #111. We will probably stop for a rest and snack break somewhere in this area before hitting the Yeager Cabin Trail. We will hike north through a heavy forest cover of pine and oak, gradually descending along a canyon tributary before beginning to climb to the canyon headwater, tie back into Trail #28 and return to our starting point. If we have enough time after the hike and can find the location we will explore a little known local landmark called Jeromino's Cabin. **Show and Go, no RSVP required.**

South Mountain is High, the Valley is Low, and you're confused on which way to go. I've come along to give you a hand, and lead you into No Man's Land.

Come on and take a Moon Ride!

As the sun fades slowly in the west, our Moonlight Cavalcade begins from Scorpion Gulch down San Juan Road (closed to traffic after 7) to its end at San Juan Point. While stopping to water our horses, we'll enjoy a cool beverage and coyote serenade. On the return trip we may further explore the parks hidden areas. So dig out the rusty bike, pump the tires, and bring a friend. Bring plenty of water and whiskey to wash it down with, plus a good flashlight or headlight, as we are riding into the moonlight. Afterward we may soak in an adult beverage!

The Sycamore Rim Trail is an 11 mile loop that runs along the rim of Sycamore Canyon. The trail is mostly flat with one little optional "bump" named K.A. Hill at the beginning. The trail is well maintained and will take us through nicely forested areas, past ponds of Lilly Pads, old cabins, clear streams and steep walled canyons. We may even see a rock climber or two. This is a really pretty hike with great photo opportunities. We will be leaving the valley Saturday morning and heading to the trailhead. Post hike there is an optional car camp for those who are in no hurry to head back to 100 degrees. We will be camping in the forest, enjoying the cool temps.
